

## 2014 Kingsville Art show

From little things, and small beginnings, big things grow...

From a small idea in a child's head, the most amazing art works can grow. This year's Art Show gave the students of Kingsville the opportunity to showcase their creative talents. There were paintings, collages, 3D sculptures and mosaics. The hall was transformed into a wonderful gallery bursting with colour for all the community to enjoy and admire. Well done everyone!
